Archaeology (and the sea)

Archaeology | And the sea
don't see | washed up
pieces of | technology
worn | down to
organic | shapes
memory | reminders
past endevours | ruined
to civilise | plastic
bits | bytes
colour chunks | killer
jumps | into unknown
territory | where?
rock | ambush
navigational | systems
to be | who?
steers | the ship
to doom | or destiny
what? | could it be
did we miss? | the stars
the bliss | the rock and roll
drugged up | chemicals
to free | that beat
the rhythm | the drum and bass
crashing on | wood or metal
electric | micro/macro
synergy | no silicon
that pumps | through
our veins | and so
clogs up | the arteries
making dance | disabled
head-heavy | with self-
induced doubt | that is
virtuality | another man's
immortal.

Andrew Gryf Paterson, 1999.
